

UNT's first concierge service exclusively for international students.

Parents all over the world are concerned about the safety and well-being of their children when studying abroad. Collegiate Concierge International was created to assist international students and their families with a program to ease the transition from their native country to life at the **University of North Texas**.

From the initial welcome package and first-class transportation from the airport, a CCI membership offers parents the peace of mind in knowing that these young adults are well taken care of while away from home pursuing their higher education dreams in the United States.
